Best Net - Odd Holes

I mean, how odd is this game? The farther left you aim the more the ball goes right; the harder you hit down the more it goes up. The better you play on one hole, the worse you are on the next. It's all so odd.

Today we're tracking your strokes on #1, #3, #5... Start strong and alternate errors and you could be our winner. Birdie - Triple - Birdie - Double counts as two under. Take every other hole off. Recover. Reset. And come back ready for Eagle on the next one. Anybody can do well half the time. Just make sure it's the odd half today.

Track your net score on the odd numbered holes only. 1st & 2nd place low net.
