Less Labored Day

It's Labor Day Weekend - Hurray! A well deserved break to pause, reflect and contemplate the end of summer. All courtesy of Canada.

But you didn't know that the first Labour Day was in 1872 when a parade was held in Toronto, supporting a strike against the (ready for this?) 58 hour workweek. The parade was repeated in New York City in 1882 and Grover Cleveland made it a Federal Holiday in 1894.

And of course, everyone knows that you can't wear white after Labor Day. So one last chance for the Whites.

As a reward for our hard work this year, we're going to take some yards off. Move up a set of tees. Play from the Whites. Enjoy, eh.
