Blind Nine

If I hear about that Blind Squirrel finding a nut one more time I'm going to do something to that guy's nuts. Still luck is a major player in our game. Today the fickle finger of fate will pick the winners.

This morning - after you tee off - Lady Luck will select nine holes at random. Only scores on those nine will count. When you're out there you won't know which holes to play well on. But when was that ever a problem? It's not like the importance of a shot ever made you hit it better. In fact...

So loosen up. Swing free. Who knows - that birdie might even count today and those doubles could be tossed. Just call it blind luck or Blind Nine.

Best net score on nine randomly selected holes wins. +/-15 HI.
